

To: Dr. Gousse, Dr. Merisier, and Ms. Toussaint,

From: Tchanise Demosthene

I have lived something that I have not expected, but it did happen just in my youngest age. So now, I can say that having this opportunity to go visiting to that wonderful place called Washington DC was not only an honor but a privilege. This is why I feel so glad at this moment to tell others about the trip.

First, I would like to recall the day when my lovely teacher chose me to be one of those who were going to the trip. I was very excited even though I was thinking about my financial need but thanks to God and you everything was given to me as needed. Well, the trip was for only one week but I felt like it was one year because I did and enjoyed so many things such as the new friends that I met, knowing my old friends better, and learning so much about American government. In other words, the trip was very instructive.

For me, everything on this trip was interesting, especially the activities. I really loved not only the teachers but the friends I met. I have become so familiar with them that when it was time to be separated, I was about to cry but I did not because they have given me hope that one day I might meet them again. I have their phone number and email addresses so that we can at least communicate.

Finally, the trip was amazing, cheerful, and so fun that I can never forget it. And besides, all f the memories that I have make it even more special to me. My advice to anyone is to do this trip.

Thank you for helping me to have this opportunity. I could not have gone without you. It was great!

Sincerely,

Tchanise
